## OVERVIEW

We will discuss the vision of Asian smart cities of the post-COVID-19 world. In many Asian regions where the demographic dividend has been disappearing, the promoting of top-down urban development is becoming obsolete. Rather, we think that making a metropolitan area that has accumulated history smarter from the bottom up by utilizing Digital Transformation Technologies.

Based on open democratic communication, we will share the idea, way of thinking, technology, and methodologies to realize “Asian smart cities” that includes various people with different cultures, religions, values.

## ORGANIZED by
